Saturday Jan 1

The whole day was spent watching doors, but it was delightful none the less. 1917 began just as it should have, even its very first moment was just right.

Dinner was at 3 p.m. and then more of visiting till the day was done and the night far spent.

Just to be with Dan once again for a long time to [illegible] is the most wonderful thing that can happen to me

Sunday Jan 2

Arose late, went down to see Elizabeth and John II. Anne Isaac Rogers and I left on the 1:50 p m for Columbus where we arrived by way of Toledo after seven hours riding. It was a joy ride along with her talking about the people we saw and about the time to come. Spent Xmas. Peden at their home and camped out in the hotel for the night. So foco life. All is very interesting.

Monday Jan 3

Arose at leisure, had breakfast, went over to Anne MacGregor's office and found her alone in all her glory. Had lunch at the Athletic Club and visited with her all p. m. We strolled around the business part of town a little, and went out to Pastors for dinner. The kiddies are very sweet. I left very sadly at 8:25. Dr. McKibben of Cincinnati was on the train and I had an interesting talk with him and Bish. Vincent.

Tuesday Jan 4

Stayed on train till noon when I reached Phila. I was pretty sick at heart & felt back, but these partings must come for a while. At last by God's leave the always time "will come. I am truly looking forward & with all my heart. It will be a new and very wonderful life & I share all with Ann Mac Fayden. She has completely eaten me up. She is a part of my soul.

Wednesday Jan 5

Stayed about house till 3 p.m. when I left for Princeton. The Folks and I discussed the problem of getting married provided I had enough money, with various opinions. It does seem hard to have to wait so long, but there is no way open now. That is a fact. It will be all the more wonderful when at last the day does come when she will become before all the world my own wife. She is worthy of all the love I can give to her.

Thursday Jan 6

Sun. sty. Fit old round of concerns and duties. It was a little hard to come back to it all again after such a good time. I have some more definite ideas of what I want to do from now on. Visiting with Anne MacGregor was very profitable. Somehow those visits with her are like deep wells of clear water. From them I draw something that helps all along the road of life till at another well by her side I can drink again.

Friday Jan 7

Sem. stu. took some exercise. I am going to try to reduce my life to a very regular routine. I think this fall I have been letting things come along about as they would. But by a fixed schedule I can make the time go by more quickly and it will not seem so long before I can be with Anne Mae Speer for a long long time. I wish and pray it may be forever but I do not know. Such a thing is hard to do.

Saturday Jan 8

Sem. stu. tutored in p.m. went down to hear Billy Sunday in eve. He preached on Naaman "And he was a leper" I guess it is "But he was a leper". He was a dandy as most his are. He has a wonderful power. It was thrilling to see so many people and to see them so intent on Sunday's every more. He is indeed a prophet and he is stamping deeply the whole country. He is making an impression.

Chapel at University Dr. Henry Sloane Coffin was the preacher. Went with Laurence Levy - saw Bill Sloan - lunch at Jenac S.S. read to Twins - had dinner with Son Mc C. etal. at Charter.

The day has been a change but one for my good I think. There is much to be done. I need the help of my Father in Heaven and the love of my Sweetheart and thank God I have both. With these I can never be discouraged.

Monday Jan 10

Sty. in a.m. exam. in P.T. Hist. in p.m. rowed Philadelphia Orchestra in eve. I would have enjoyed it more if Anne MacQueen had been with me. I can't make up my mind to like this place. What I like least is Benham Club and I think that reacts against the whole business. I can't just figure out whether I am to blame or the system I am up against. Truckon I would not select jury from any impartial jury. Either

Tuesday Jan 11

Stu. heard Billy Sunday in First Church. tutored and stu. in p. m. took a nap after - stu. and tutored in even. The day has been full. I can live so long as I can keep the days full. Otherwise it would be hard to be without Anne Mae Gregg. Somehow I never seemed to love her so greatly as now. My heart is overflowing all the time and my delight is to write her such as wonderful letter as I can frame

12 Cloudy +40

Wednesday Jan 12

Sty. took three exams. Ch. Hist., N.T. & Intro. & Apol. Hist. ran behind 4 hours in exam. & feel as if I had put in a day indeed. Yet I like it now it's over. It has been hard. I wish to thank Dear Sweetheart such a happy little respite from the weary toil. May the time fly till I may be with her for some more wonderful visits. She is the star of hope on my horizon.

Thursday Jan 13

Tutored an hour. Sewed. worked in room. Benham Prayer Meeting. The days do not seem to be sliding along so very fast. Just now it seems like a long long way to that day in May when by God's Providence I may see Anne May again and know that for all summer I can see her continually. There is a lot of work to be done so for the present I can keep back my sorrow and lonesomeness for her.

Sem. Sty. work on my Ch. Hist. essay is very. I would one day like to become a great sociologist. I believe that sociology has so far been wrongly considered as a part of biology whereas it more properly belongs with theology.

Finish an outline of my International Peace essay for Anne MacGregor. She wanted to hear about it-[illegible] between. She helps in a thousand ways.

Saturday Jan 15

left Pa safely hearing Penny warfield lecture on the nature of God. Stayed at home in Phila. except for one visit to Leary's book store and Wanamaker's store. Evening was spent quietly. Wrote a letter to Anne MacGregor. She dear child has been fighting a bad cold. Sick spell. Oh I do hope it will not be long before I can take her and take care of her. She needs me every day and I do indeed need her

Sunday Jan 16

Ch. Dad had a fine sermon on Christ and the social order. It was a splendid presentation of the subject and I agreed with it thoroughly. Stayed about home all day and left Pat in the eve. When I got back here I found a note from Mrs. Stevens and ran over to see what was up. Then I stirred around here and then came back and turned in for the night. So it goes day by day and week by week.

Monday Jan 17

Sun. sty. It has been a snapping day. I took my exercise and feel pretty good. I want to stick to my exercise schedule by God's help so I will always be in the best shape possible. I believe my work for God will take all I have and good health is no small part of the combination. I want to serve God with my body as well as with the rest of me. It must be in wonderful shape —

Tuesday Jan 18

Sem. went over around college & gather up some stray ends of errands & had lunch at club then. Exercised. tutored one hr. in eve. work on my essay. It is getting well along. Then I can go after the Peace essay. That will take great care. I do really want to do something with that, tho' how much its money would help along. I pray I may win it.

Sem. finished Church History on the Catacombs. Skated on the Lake. It was wonderful. I except the cold finish him. The flag was still up.

Intend 2 hrs - The day slips past with my schedule of work. Well so long as it leads down Isaac Greyer it is all right. Had a telegram from her that she was well from her sick spell - I am so glad. I certainly do keep her on my heart. I have been quite low till I heard about her -

Thursday Jan 20

Sem. lutered studies. I did not get in any exercise today and miss it. That is the balance wheel which help everything running smoothly. I can't want God to help me in writing the essay on Peace. I believe I can make a very worth while thing of it and I do want the $500 very badly. Well I'll do my best and trust to God.

Friday Jan 21

Sem. tutored - Sty. led a prayer meeting for George Horn at a home out on Hanover Street. Stopped a minute to hear Calvert sing for Red Cross in Alex. Hall. Heard by letter from Anne MacGregor that she was out and well again. I am indeed very glad. I am afraid that her work is a little too heavy for her. She is a finely strung wonderful girl and I hate to see her hurt in any way —

Saturday Jan 22

Sem. Billy Sunday preached at 11:30 in Miller Chapel. It was the best sermon I ever heard him give. It was on Micaiah the single prophet who prophesied against 400 & Ahab and Jehoshaphat before they went out to Ramoth Gilead. It was a propos of the kind of preaching that is current to please man and not God. Those who modify the truth & make it acceptable to the ears of the audience. It was a wonderful sermon.

Sunday Jan 23

went down to Trenton and heard two sermons. They were both very fine. The meeting in the afternoon was for men and was perhaps a more stirring time than the a. m. Certainly no man can preach like that man. Checked by the standards of the Bible he rings true. If the Bible is authoritative so is he. Talked with Dave Vandyke in even. The day has been a very worth while one. Billy Sunday supplies a lot of inspiration.

Monday Jan 24

Sem. stu. tutored - stopped

Sen. Sis. walked down to Trenton with Don to hear Billy Sunday on amusements. We sat with Miss Minton. It was indeed a sermon. He had a big crowd. I did not suppose any person so greatly above the average Sunday sermon I have heard. Billy on the plain old Gospel is the best-thing I know of anywhere. It is a wonderful power for good in the world.

Saturday Jan 29

Sem. left 10[34] for Phila. bathed and went down town in P. M. & took in old books or rather second hand books useful to me. Wish I had a fund of a reasonable amount upon which I could draw for books that I wanted. Could read all my whole time. Fybel sometimes at the bath, which keeps me running 4 classes and busy about a hundred things when I want to read so much

Ch. went over and talked with the Lloyds an hour more in p.m. led a Junior League meeting for Dad in eve. For the first time I was of practical use to him. I substituted for him in a thing which he was scheduled to do.

Returned to Princeton on 9.00 train. Sem. worked. Read in Westcott & Hort's N.T. Introduction. Just now I do not feel quite on the track again. It is hard to keep pounding away at a thing, with so many interruptions. The tutoring takes some and they are a lot of other things which also feel the time and on only has about so much. So goes life - work to my treatment

Tuesday Feb 1

Sem. stu. took my exercise - had a lovely letter from my Sweetheart. She has moved from the Pastons for various reasons, mostly because Mr. & Mrs. P. seemed to be getting ready to separate from each other. It is too bad for they have three very sweet kiddies, and they will suffer most. It does make me wonder how a just disposition is made by God of all the hard things which we see in the world.

Wednesday Feb 2

Am tutored exercise sty. read acts all through at one sitting. That is the real way to read the Bible. It gives a balanced and comprehensive idea of its contents, which it is hard to get in any other way. I want to drill myself to be a continuous and hard reader of the Bible. There is a danger of study more about the Bible than we study in the Bible, which afflicts teaches us a lot about

Sem. lectured stu. took my exercise - wrote on my essay and went up to a club prayer meeting. Another spell of winter has struck the place and I will be glad to see it go. When once the balmy spring gets started, things will begin to look better for me. It will begin to look like the end of my year at least. It has been pretty hard I must say. Shoulders and the hardness is all inside of me.

Hope I can continue to get in touch with some of this tutoring from time to time. There is not much being done in some lines and there is a good opening. So goes life I am tired.

Tuesday Feb 8

Sem. exercised - They had a "stunt night" this even. This p.m. I went in to a tea at Springdale. I am beginning to wonder how well the Stevensons wear. Once in a while I rather doubt their lasting quality.

Had a good letter from Anne MacGregor. She is a very remarkable girl. The days only add to the glory of her. It grows on me day by day as they roll along.

Wednesday Feb 9

Left Pa. 1¹² Palace Theatre in NYC. Bustady's Banquet & Fence at Princeton Club. "Very Good Eddie" at Princess - Wallick's dance palace. Sat 59 got to bed at 130 A.M. New York is a most wonderful place. I am amazed and deeply impressed by its sin its sorrow and its money it spends. It makes me glad for the business I am in. The Gospel of Christ to what that city needs. How does it escape Hell?

Thursday Feb 10

Arose 10 a.m. Left Sat. went down on Wall St. to see about relief work in France. Went around town NYC. Had lunch with Eli, Inez & Tom Whitt. Brought some fine books down in the region. Stopped in at Trinity Church.

Left 4:03 for Peekskill. Had a warm welcome and am glad to be here. These cousins are indeed lovely to me. Irish. Ann MacGregor were with us so they all could enjoy her. They would so much. It would be very wonderful.

Stayed about school. Opened school by holding prayers in a.m. Went down street with Sarah. Movies in eve. 5's Chum Helena Smith is here. She is 15 yrs. and a great biter. Had a lovely letter from Amy MacGregor. It makes me sick that I cannot have her here & see these folks. They would quite lose their minds because of her. Had a very pass'ble time but it kept me up late again doing odds & ends things after it. In some ways it's about unbearable here for me. I can't see the end. I can only run along a day at a time, but the running is hard.

Sen. Prof. Machen showed me a piece of his narrow little spirit this a. m. He is a contemptible little cuss. I would delight to tell the little abnormal pedant just what I thought of him. I may do it some day in a fit of anger. I have no respect for him whatever.

Dinner at Senate. Rowed with the boys. Crusaders met 9 p. m. That is a wonderful little group. I am glad for it indeed.

Thursday Feb 24

Day of Prayer. the first I ever went through. 7 a m 10 30 4 & 7 p m. I got in some work & a lecture by Morgan of Columbia on evolution and some exercise. I guess the day of prayer was worthwhile. I am having a hard time in some ways. I miss Anne Inger so tremendously that it fairly hurts. It does seem hard that we cannot be nearer to each other. Why did we ever get apart again I wonder.

Friday Feb 25

Sew, stu. rowed — went in gen. to party at Harris'. met Miss Baldwin whose home is in Paris and who said mean interesting time, discussing Roosevelt and other things. I managed to have quite a party. I got limbered up a bit and forgot to be moral. Think I need some such a thing and a party often. It keeps me going better.

Sem. finished essay for prize and sent it off. Wrote out essay on Stephen. went over and rowed. had dinner at Jenac, mov. pic. Got Calvin's Institutes, which I bought in N.Y. and had partly rebound at library. It is a fine copy and I am glad indeed to have it. Now if I can only find time to read it, it will be mine indeed.

My heart goes out to Anne MacGregor. I wonder if she is in Ann Arbor. She thought she might be tonight. Success to -

Chapel at college Dr. Ingersoll preached. Read John's Gospel 11 p. m. Went over and talked with Dr. Speath. In even. went over to Farais'. Had a good time chatting with Miss Baldwin. She is a bright girl, interesting because Anne MacGregor is a hundred times as bright. She is the queerest girl creation that girl. They never wash her face

Monday Feb 28

Sem. stu. rcved. worked on essay p. m. and in eve. Had a letter from Anne MacGregor telling of her Detroit trip. I wish she were near enough so we could do a lot of things together. I don't want her to get tired out with so many things. She is the most wonderful person on earth. She never fails and it makes me happy every time I think of her.

God grant her health and strength and joy in all that she does and bring the always home soon.

Tuesday Feb 29

Sem. read a good bit in Calvin's Institutes. pi. hand ball - went to Philharmonic in even. Sat in Talley's room a bit and talked. I can visit with Jal and Fred with a lot of joy. Somehow I have a on Jal to me. I want to keep clear to him because perhaps I can help him find his God. It is a slow process often, when all we can do is to wait and be ready. Work to my own true Sweetheart.

Sem. rd. Calvin - went over 5. Harris' - 5 prayer meeting with them and sat around afterward. The Parisienne is very interesting. She is a granddaughter of Rabbi Green and a dau. of Prof. Baldwin a well known psychologist. Whenever I see anyone who is the least bit interesting it drives me back harder than ever 5 Anne MacGregor who is better than them all. She is the sightest and best among ten thousand. Just to they could see her -

Thursday Mar 2

Sen. Stu. went to dinner at Prof Wally B. Harris' Miss Baldwin is a very fine woman. Wall went to the movies. Dad is J. Mark Baldwin a very well known psychologist. Liked her confab very well. Enid Ann MacGregor were around when she called & visited with. She is what makes life a bright hopeful proposition for me. I hope God has a visit planned for us ere long.

Ch. heard Father. It was fine as always - left Phila 10th Brooklyn - went to Anton Conard a Sem. classmate & chumate - was pallbearer - Dr. Newell brought Hillis had service went to cemetery - went over to Nyce & saw Mrs. Porter at hotel - had supper with her - went to Martinique and wrote a letter to Ann Mac Gregor. watched cabaret a minute down stairs - left 10 p.m. train full of Princetonians - The day has indeed been full of many things.

Monday Mar 6

Sem. stu. I was taken back this year by Stacy over Commons, and my general failing. I admit my heart is still on the college campus. I resent a lot I see here, I have a hard time getting used to the place. But I feel that by God's help I am coming through all right! My heart is not pinned on my coat, but that is the nature of the beast. I have got to learn methods of warfare. I make fair pas now.

Sem. stu. had dinner down at Friar's club. went over and socialized with Don and Pat a while. Read some also. I read 2 hrs in a.m. on Calvin's Inst. that is a meaty with thing. It seems to fill me full of a sense of real conviction. I never felt I was getting more out of my secular reading. It certainly is one of the great works of the world. So goes life. Every day has its task to be done.

Sem. stu. - Radio' Evening at club. Went with Ben & see "The Battle Cry of Peace" with Misses Harris and Baldwin - It was a great "if the U.S. were invaded". One can not help but wonder whether such a thing might not happen. We know that much that sort of thing did happen in Belgium. It is a really big question and I wish we had here a great enough man to take the helm. It is too big for partisanship yet now it seems to be nothing but that. The Lord's will will be done

Sem. packed up and left for Phila 12 ½. Fitz and Dick Dosher were along. We looked over the Feminin talent in Phila. till they had to take their train to preach. Sent on a drunk to the old book stores and purchased a 6 vol. first edition of Dumas's plays for $1.20. a bargain I should say. Evn was spent quietly at home with the family. So goes life. Week by week and so life slips away

Sunday Mar 12

Ch. Communion. Stayed at home. Read on of Dumas tragedies Henri III by name. Began "Napoleon" in the train back to Princeton at 7 o'c. The day was well spent on the whole.

Wrote a long letter to Anne Mac Gregor in town. I have passed the crisis of a trying experience this week, when my life's usefulness hung in the balance. By God's grace I have come through safely.

Sem. stu. p. m and even. This has been one of the worst days in the matter of weather that could have been, but because of all the work I have scarcely noticed it.

Life is certainly slid along much more happily since I tried to be nice to the world and not assume all were out after my head price. I needed them to love people more and I think I am growing in grace day by day more

Sem. felt pretty mean in my head. I sat up to late last night. I guess I need more so much sleep. I try to buck nature once in while but I notice I can't for very long.

I feel happier every day. I believe the love of Christ is flowing out through my fingers tips more and more. Have lately felt quite a revival of love for mankind. God is my tower

The moon at night was wonderful. Spring was faintly in the air and then I yearn for the old age long stirring at the heart - Life is a wonderful thing with so many deep unknown currents. It makes the Christian mission seem all the more momentous.

Monday Mar 20

Sew. It clouded up and became colder as the end of the day. Worked a good part of the time. Letter from Ann Craig Speer states that she may come along any time now for a visit. That is good news indeed. It will be a wonderful thing to see her again. She is indeed a star in the skies. She is the girl in the world who loves me best and whom I can love best — and most deeply — She is my own Sweetheart

Sep. Somehow the day did not produce very many results. Fritz and I went out and played catch for a while on the south side of Hodge Hall where the sun was. There was just the faintest presentiment of spring in the air which we caught at eagerly.

The days are gliding past us. At last the spring is here but as yet there are not those signs of verdure and beauty in the air that warm one's heart up.

Friday Mar 24

Sem. left 9[33] for NYC. interviewed Sm. / Hibbard about Europe. He made a favorable reply. Met the Girl at 1[45]. It was a great big wonderful moment to kiss her again. She was free, & we called up Peekskill and went out there for the night. The family there certainly fell most completely in love with the. The Greatest Girl in all the world they showing what good sense they had

Saturday Mar 25

Left Peekskill 9°° a.m. arr. N.Y.C. circulated around on 5th Ave. had a wonderful lunch at Bretton Hall - The girl had a credit of some $3.50. Then which we tried to eat up. In p.m. we went to see "Erstwhile Susan" by Mrs. Fiske. Then again a meal at D. H. & caught 7 p.m. for Phila arr. 9. Saw in paper that Miss Baldwin was nearly killed by explosion under the ship she was crossing the channel upon - The day has been well night perfect beautiful

Church Rev. A. P. Kepler our missionary to China preached. The girl said she was willing to go out yonder. She is the most wonderful person in all the world.

The day was spent very quietly and happily. Ch. in eve. and then a beautiful visit. Somehow the wonder of her never grows dim. Every day brings the realization of what loving her really means and how rich a term it is when applied to her.

Only time will tell what the girl will be

Sem. took two hours on my wheel this p.m. in the sunshine. Went over and had a talk with Dr. Warfield. He is a wonderfully interesting man. He leads about the ideal scholar's life. Monday Apr 3

Sem. Abi blew in about 11 a.m. We had lunch with me. We went down to the lake and rowed and had dinner at Tenas where we saw the new 1915 section. They are very promising looking bunch. Inv. pi. followed and finally Abi and I came over here and went to bed. So the day passed away and one less of this Sem. year for which I am very glad.

Sem. rd. a good deal and really got a piece of work off my chest- had a letter from Miss Baldwin which was quite interesting in light of the serious accident which befell her. I don't know whether she is going to live through her operation or not. The event has caused no small stir in all circles - Ollie & I watched rowing 1½ hrs this afternoon - Sun. at the Falls -

Sem. stu - went

Sem. considerable work done to-day. Received a perfectly wonderful letter from Ina - She is indeed the only girl in all the world. That tremendous thought comes over me very often these days. Hope and pray I may be able to go out to Columbus to be with her this summer. It would mean such a very great deal to us both. Shall look for a chance to write her day after day for a while.

Sem. went down and took a row alone on the lake. Don came over in town, and we had a long talk. He wants to take up medicine and I cannot imagine anything better fitted for him.

Had a long letter to the girls. The days are passing but not fast enough for me till I can get to that girl. She completely has my heart. Their news was such an one before

Sem. rd. and worked pretty steadily during day. In even. went over to Dr. Erdman's to meet Chinese boys. Mr. Chi the inventor of the Chinese typewriter was there. Prof. MacElroy also who is going out to teach there as exchange professor for a year - It was one of the most interesting evenings I have spent in a long time. It was a strong stimulus indeed to draw me out there. It looks as if God's work could be done there to the great glory of God on earth -

Ch. Dr. Erdman preached. Macaulay's Essay on Frederick the Great - Went over to Terrace to dinner and stayed part of eve. with Jal. & Fred - Heard from the Fiji. that there was a job with a church out there hanging fire which might turn out to be the thing for me - It may be God is working out the ideal plan for my life & following. He always has done so —

Sem. went down and
rowed 7 miles in D's
single working boat.
I hope before long I can
get set up some kind
of a tiff in Columbus.
It will make the dreams
of being with the girl
seem a whole lot
more real to have a
live girl tucked under
my arm. I believe
it will be arranged
in time. My hardest
work is that of

Sew. worked more or less ill at easy all day. Ops & then days that I forget so well - Some how this year it has been hard to organize myself - a sched by intuition thing. I have eaten the work well enough and done a good deal besides but somehow it has not been right under my hand. I am looking the summer to buy me back to pass it very well -

Sem. went down and took a little row - These days are dragging along pretty slowly. I guess with God's help I can pull through them. I need Him at every turn. This year has gone mighty hard. I never put in such a time in my life. I wonder if next year will be as hard. This has been a veritable nightmare almost from the very start - Perhaps God is training me for the days to come. I welcome it for Him but it is hard -

Sept. went down to the lake and had a real rowing practice stroked the crews a novice freshman and 4th varsity and we raced each time. Always great to be at it again - Dinner at Lunaas & movies - not much work but perhaps no London. Oh, I enjoy life some days very much. Must exercise and get a good work out

Sem. a day various in its weather - without anything that was remarkable - I am looking forward with a deal of hope and joy. I cannot wait for the time to come when I can feel for the first time that I am really near the girl and able to see her for a good long time day after day. Our times have always been so fleeting - sometimes but soon to be broken by necessary journeys often long and hard. So sad ties can last & binds it good gold.

Monday Apr 17

Returned to Princeton - Sew - worked in afternoon - went to Ingrid in town. Saw Billie Burke. She's great on biz - & makes me think of Ann Macfayden because she is so dainty and shy away - just so happy and bright all the time - So to the days - Reckon is here and with it very little work will get done now -

Sen. Drs. Geo. L & Chas. A. Robinson dropped in during the afternoon. I was very glad indeed to see them. It was my first sight of Geo. L. and I liked him very much. They say he is an unfeeling Scotch man but I can sympathize with him, then for they say the same things about me - The days are rolling along. I am getting the work cleaned up little by little and trust to get it O. K. with Ted.

that was very full
of love and good
news. She is indeed
a wonderful girl.
I am tremendously
anxious to see her.
I hope it will not

be able to do it. How
fast the days will
pass now!

Left Phila. 904 stu. wrote to Anne MacGregor. She sent on a picture of her that did look terribly. She looked so worn and tired that I near wept in the air. Poor little girl. I do wish she did not have such a taxing job to work at - She is not made of iron and I don't want her to wear out, just making money for a few printers. & hope things will work out this summer well - I think God will take care of us according to His will.

Stu all day President Wilson came to town today and planted some trees on the Lincoln Highway - The day was horrid overhead but it made it easier in some ways to study - I will indeed be glad when these days are over at last. God willing there are not a great many more of them in store for me this season. Then I hope to be able to go to Anna MacGregor -

Exams. began to-day in real earnest and I had two of them. Bib. Lit. of O.T. in a.m. and Sup. Thro (Jun.) in p.m. Then I went off to watch a ball game for a while, walked down to the lake and came back to dinner. There was some work on hand so I had to settle down to do that. I will indeed be glad when all this is over. I will not be a great while now either. I am trusting God to give me the victory even here.

Exams. in Homiletics & Mission, not so hard-stg. pen 2 hrs for Sys. Hyo. (Author & Genl.) That is a pretty hard set to handle. Sam Mac Gregor sent her one of the most wonderful pictures of herself to-day. They came along just as I had been putting in a good hard bit of work and they did most certainly help along a lot. She is a great girl & fulfill all your hopes and then a lot more besides -

Saturday Apr 29

Exam. Systematic Theo. Authro. & Soteria - It was a good hard exam. Left in P.M. for Phila and finished day there. The weather is beautiful. I am beginning to feel tired out myself. This year has been very hard for me in almost every way.

I guess God has a plan for me. He has led me along a stony road this winter all right enough. I do come near to despair at times with all the ins and outs of life. Suppose it.

Sunday Apr 30

Ch. made some candy with Sis - came up to Princeton in even. Found Anne Mac Gregor had already started cast by a devious route - You never can tell what she is about to do. It keeps me in a state bordering on frenzy - She seems constitutionally unable to live a regular life - She has to make a trip about every week or else she feels she is not having the right sort of time. I fear I may learn her ways in time -

Monday May 1

Struggled through a day of no work but my hope to Aunt Mac Gregor concerning how far I could co-operate with her on this trip - I think she could have made a better plan out of the thing if she had worked a little longer on the plan. She has not a long head on some matters. She gets along to a good degree by her merits. She always means well and does not want to disturb things -

Tuesday May 2

Exam. A.J. Hist. stu and wandered around being sorry Anne Mac Gregor had to be around with her new superviser in business. Exam finished and Anne Mac Gregor tried to phone me on the phone but I was out. Sorry again. Oh. I will be glad when this week is over at last. If I just am at it to get through it it will be a great relief. So goes life. Finally Anne Mac Gregor had waited in C for me —

Wednesday May 3

Exam - Anne MacGregor called up from N.Y.C. Began the day with. I was glad to be through with work for a season The year has been hard I have met a lot of new experiences. There have been hard times as well as smooth bits of road -

Left at 4.45 p.m. for Phila. Anne MacGregor came on a bit later train. The even. was a happy one after all the struggle was over and the summer had begun. She is a real help in life.

Thursday May 4

Took Anne MacGregor downtown where she met Mr. Lord with whom she has to make the business calls for which her trip east has been made - She came up to lunch and I went along on the one trip of the afternoon. Then we two went shopping - It goes very wonderfully to be going around with this Girl of all the world.

In even. we rested and visited with the Folks and lastly had a little visit of our own. They help most of all the human things that happen I believe

Left Phila 8.00 a. m. with Mother Dodo and Anne MacGregor Anne MacGregor left us in N.Y.C. after making the first part of the trip very splendid by just being along - The rest of us reached Delhi all safely at 6.45 P. M. The way by Bloomville was by far the nicer way of the two -

Delhi has not changed perceptibly. A few more are dead, they report although one would not immediately recognize the fact. So goes life day by day.

Saturday May 6

went down town on errands- more or less waited until the afternoon train when I expected Anne MacGregor to come, but she did not arrive until 6+. Spent the evening reading & all the ladies here present, and finally Anne MacGregor and I had a visit. It was rather wonderful to have this little time here in Delhi- There is a charm about this place. I hope it is in fact & plan for me that in the years to come Anne MacGregor and I may be able to spend much time here

Sunday May 7

Ch. at First - read "17" & Folks most of day - Read Hebrews & Anne MacGregor. It adds a lot to the wonder of the Book to be able to read it to her. Late in p.m. we went down on the Kittredges a few minutes. Even. was spent reading & finish book - It has been nice to be here for a little while. I am looking forward a good deal, with the hope that God will bring us all together here again before the summer ends & rejoice in God is love and His goodness.

left Delhi 7 a.m. called up
Mrs. McCreary in Syracuse
but found her out - went on
to Rochester - Spent rest of
day waiting around and
running with the Payne
family - In the even. we
went out riding in an
automobile and saw all
the magnolia trees in
bloom. Anne Mac Queen
and I have started
west & have our fortune
as it were on in Columbus.
The year has been full
of hard times apart
from her. God will say
hard times upon us
but she is sure to help.

left Rochester 11.30 a.m. and took a trip to Columbus stopped at Buffalo, Cleveland and when we reached our destination. The trip was in every way full of delight. It was a joy to be travelling with Anne Mac Gregor. She has the faculty of making all the way brighter day after day.

Got a room at the Y.M.C.A. and felt in a way as if I were really settled in Columbus -

Had breakfast with Anne MacGregor - Then I began to line up jobs - Dr. Palmer was out of the city - Steel company offered me $90. a month 9 work 12 hours a day 7 days a week alternating every two weeks from day to night - Ft Jefferson Co. also [illegible] mill & Bryant Co that they might have something for me but nothing definite showed itself

We had dinner together out at Hyplace where Anne MacGregor headed [illegible]

Thursday May 11

Continued during the day to try & round something up & do the shopping - In the meanwhile it is very wonderful the way Anne Mac Gregor and all a good lot of her age & Sex do cause that it makes things run so much easier for her and that's something very big to consider for after all she is the girl & all the world whom I love best and who has cast in her lot with me -

Friday May 12

Spent the day in reading and running down leads for a job. Sometimes I do think that there is no job at all for me. It is not a mere matter of coming to town and receiving deputations of business men outbidding each other for my unique and invaluable labors. I am unquestionably the seeker my own self-But I believe that if God means me to stay here He will find some work for me to do somewhere here.

Called on Dr. Palmer and began to see that his job was likely to materialize after all. In even. Mrs Isaac Jaggard and I went over to the Rogers to a little party. We had a fair enough time on the whole. It lasted full late which fact did not overjoy me but there was no way out of it till we left. The days manage to speed along in a quite remarkable manner. I like to see them on after another

arose somewhat later than on other days - walked out & Annie Isaac Dean in time to go to church with her. It were a wee bit late to-day, but not so cold. In p. m. and thunder neat and rain We looked at pictures and read in the Bible. Read from the Greek and followed in the English - In eve. we went down & heard Dr. Aladdin and he was not very much of a preacher man

Monday May 15

There was not very much shining in the way of a job for a while. I began to be a good bit discouraged until a man named Damon blew into Anne Macfregor's office and said the Church had a proposition for me. I was interested and after a conference with Mr. Westfall I gave notice that on Thursday I would indicate to them my answer. It looks like a good opportunity in a great many ways. I hope God will lead me.

Made a trip to Stellton and talked to the business men, they talked and realized that they did not have anything for me really. So I took a bath and lined up for the meeting. At 8 p. m. I made an appeal to all Christian men to be men of God. It is indeed a very real spiritual fight we are in. I think this is going to be a great experience for me. Everyday I pray will give me something will write you & prepare at 312 Outlook Bldg.

A real cold day. 2nd p m. I went down on my own initiative and we called upon the two old ladies whom we went to see yesterday. For a few minutes Anne MacGregor and I stood at Broad and High Sts. and watched Ringling Circus wagons go past. That good old institution has been my companion for many years. In eve. I went to a Bible Class and had a visit with Anne MacGregor —

Thursday May 18

Had breakfast down at the Busy Bee with Anne Mae Gregor. In P. M. Mr. Bingham and I went to call on Mr. Jompson a faithful elder in the Broad Street Ch. who has been active down at the Chapel for a number of years.

In even. Mr Purent with me down to a service at the Chapel where I had to expound the lesson. It was a very interesting occasion and she liked it a lot. Her eyes shone after it was over. That was a big reward.

Friday May 19

Had breakfast with Ann Mac Gregor. went up to Clerk's Office and looked over city map. Interviewed the Associated Charities - went up to Court House - called in p. m. with Mr. Bingham. went down to Chapel in even. for entertainment. Came back to Anne Mac Gregor for remainder of evening. I think I am going to get a good deal of worth while experience out of this time. I often wish I were going to have the two months in camp too but I would be happy there without Anne Mac Gregor -

Saturday May 20

Had breakfast a little late. went down and watched a ballgame for a while on a corner lot in the lower part of town.

Ann MacGregor was through with her work for an hour or two after noon. Kate then went out to prepare a supper at a little church for some boy scouts & their fathers. The scoutmaster invited me. Dr. Wilbur the pastor studied at Sem. in Princeton. I had a very good time. I make a little speech and did not die at it. I may be all right some happy day or two.

Had breakfast alone and went out for Anne MacGregor in time to go to church at Broad St. Dr. Palmer preached on "The will of God" In p. m. I went to S. S. at Chapel and then Amy & I went out to Perkins but they were out. In even. she went with me to Chapel. Ed sang and Bingham preached. When it was over we had supper. When I reached my room I found a telegram from Mother saying that Dodo had died on Saturday night. I half expected it for she had been sick of late

Monday May 22

Spent a more or less hectic day trying to determine whether I should go to Delhi for Dodo's funeral or not. Finally by telephone I found that it was not necessary.

In the mean time I read to Anne MacGregor over in the State Library and in the p. m. we went to the movies. Evening was spent quietly at home. It was in many ways a perfect day. It seemed sweeter to be with Anne MacGregor. We had such a genuine good time all day in spite of the external perturbation

had breakfast alone went up and sat through a session of Juvenile Court. Indeed I was forced to believe that people need more than external regulation to make them do what is right. I never saw such a rolling tide of depravity as was marshalled before Judge Black. Made calls in p. m. with Bingham and saw some more of it. Am Phadelass went to set her and finished the day with a beautiful ride with her. She is very wonderful

Wednesday May 24

Got in touch with Bingham went to court with a woman who is trying to get the law on her husband who is now living with another woman. Called alone in p. m. One of the ladies was drunk as could be. And prepared supper in her office. We had a wonderful steak. She went to Chapel with me, and worked while I held a men's Bible class. We walked home.

There is a rumor that Germany is making an effort to get peace and that von Bulow is on his way hither to see what can be done.

Thursday May 25

Had breakfast with A.M.P. at her office, also lunch. No work much in a.m. started to canvass neighborhood in p.m. Shower, conducted S.S. and taught lesson. Visited with Ann MacGregor. The weather is hot and horrid. It makes me wish I were going to be up in camp. but I know I would not like it there unless Ann MacGregor were along.

The Republican clans are gathering. Roosevelt went through the farce of accepting the candidacy from a committee who said they needed him. That was not the convention however. Hughes is strong.

Friday May 26

Made a canvass in a. m. for children and religious affiliation down in our region. In p.m. after lunch at Mac Donald's with AMP we went out to the Ohio Penitentiary and went through it. Mr. Bingham went along. It was run with a good many devices for occupying the prisoners time. Criminology is going through a stage in its theory that is unique. Some are trying to forget or deny the penalty paying aspect of the fact. Law & even holds to this error just now.

Saturday May 27

Worked on survey in a. m. called at hospital - went out to 586 after lunch and remained there p.m. & eve. We read and had a wonderful time. I carried out a great big American Beauty rose and it was indeed highly appreciated.

We read from the memoirs of Li Hung Chang. They are a unique collection of the reactions of the oriental mind on occidental ways. Like old Minister Wu Ting Fang he has great humor and a pointed, discriminating judgement that makes all he says interesting

Sunday May 28

Arose wrote letters to Folks went out to A. M. P. Church heard Troup a missionary from Soo Chow. He made a fine address on "The Last Need of China, Jesus Christ" S.S. rd. Bible. Chapel in eve. supper at Mill's afterward. The day has been good. It is wonderful to be able to spend a normal Sunday with Anne Mac Gregor and go through the day's experiences of worship & reading and prayer with her. She will be a strong help to me through life. She can comfort discouragement and inspire to higher ideals.

Monday May 29

Did some work down on field. Attended the local ministers' meeting and met some of the Pres. preachers in town. Two proved to have Delaware Co. connections and they were especially glad to meet me. Everyone was cordial and I enjoyed it first rate.

Worked on sermon in P. M. and went out to dinner at usual place with A. M. P. Gwen. She robed herself in some wonderful evening gowns and to celebrat her birthday I stayed later than usual -

Tuesday May 30

wrote out a sermon in a.m. went out to Ayre MacGregor toward noon, had lunch and stayed rest of day. It cleared off splendidly toward evening and the night was clear and cool. We read and went out in the yard to bat tennis balls around. In even. I read while she sewed. Being Memorial Day neither of us had any work. It was altogether one of those quiet days which are good for the soul.

These are happy days that come to us.

Canvassed - worked out data in p. m. had supper with Anna MacGregor in the office - went out to prayer meeting at Broad St. Ch. in even. spoke briefly there, rode around after with the Prices - came to Kelton's - talked with all there a little while and with Anna MacGregor a longer while - It requires constant vigilence to make life high and lofty. The natural tendency is downward. If sociologists would only realize this so much light would break

called in a.m. had lunch in office with Anne MacGregor - went out with her to Democratic State Convention in p.m. a while and heard Sec'y Baker speak.

In even. there was the mid-week meeting at Chapel - not so many were out to it. Little by little life here is getting regulated. There will be time for a great deal of worth while things if we can only be able to get them done. We have done a deal already and I believe that we are going to be able to soon improve -

Friday June 2

Had breakfast with Anne Mac Gregor, made my calls - had lunch at Lazarus with the same wonderful girl. She had a supper and went off at 4 o'm to prepare it. I went up my data and read a bit and joined her at the supper at the M.E. church. I was asked to make the prayer at the beginning thereof. We came home in a pouring rain and instead of visiting Cats I came down to try on a skirt with my rather wet garments. This is the 2nd of the month an anniversary

Saturday June 3

Breakfast with A.M.P. Went to the Greek Church ΕΛΛΗΝΙΚΗ ΟΡΘΟΔΟΞΟΣ ΕΥΑΓΓΕΛΙΣΜΟΣ ΕΚΚΛΕΣΙΑ ΤΗΣ ΤΡΙΑΔΟΣ Worked on sermon. Had lunch at office, shopped, was paid the jiggers I was owed by A.M.P. She served on a hot whit Bread. In eve we did same. Taught her some astronomy and we talked with the folks there. A fine lass. Scan required a search late in the evening. The day was fine. Hughes is slated to get 175 votes on first ballot at Chicago - the meaty elf -

Sunday June 4

wrote to Folks - went to Ch. with Anne MacGregor. Dr. P. used some of the statistics I had collected. S.S. in p.m. I preached in even at Chapel on Christ our High Priest Heb 9 11-12 At the close of the service a little girl and a young man came down and confessed Christ. It was a most impressive thing to me after I had been preaching to have a soul be moved by God in such a way - It did fill me with a most profound joy and perhaps God had used my words to turn some one to Him.

made calls all a. m. Had lunch in office. watched a man demonstrate a suction carpet sweeper. It was very interesting. I think he did it well. We went to get the rosewood flute which I found down in 111 Little Hall. Then we went to a movie by Mae Murray called "The Beautiful Kitty Bellairs". It was a most attractive picture with a real plot and attractive stage settings done by Belasco. In even we played. The flute works even better than it looks and we are delighted with it -

went to the Bingham-
ups to Juvenile Court. A
couple who had been
living together for 15
yrs. were ordered to get
married forwith. Had
lunch in office. Made
one call on a crippled
lady who had a long
hard luck story to
tell. The McClures had
a dinner at home
this evening which
was a most delightful
affair - The evening was
spent most pleasantly.
The days fly by - in a
most charming way.
It is good to be here.

finished up some calling - had lunch at office - worked over two small segregated sections in p.m. Had a most interesting time. One man had a spiritualistic turn of mind - one woman talked mostly german - one woman's husband would not allow her to come to church - and so it went - We had our dinner down town and went to the Holiness Rescue Mission a little time. Well they may lack some fine points but they certainly preach Christ crucified there and I do believe God owns their work.

called - went up and arranged cards. Have located some 500 children for the summer school. They will not all come by any means. In p.m. I fell asleep quite to my disgust after it was over although I did rather lay myself open to it. S.S. study in even. at chapel. Mr. Bingham said I preached over 50 minutes. I don't know whether to be elated or ashamed. I did not know I had that much talk in me. What I wrote out took less than 15 min. to say.

rd a bit before breakfast. cleaned up bits of work during day.

The convention at Chicago is trying to decide whether it can stand Roosevelt as its candidate as a price to pay for not having itself knocked to flinders by T.R.'s running as in 1912. It is a straight hold-up game on Roosevelt's part, not because T. R. is the only man who can beat Wilson, for Hughes is admittedly stronger, but else he will smash their party again for T. R. must run himself

did a few errands. Mr. Poston kindly extended the use of the athletic club swimming pool to me. I did not care particularly to accept it from him but the result was very nice. So far as I know the gentleman I have absolutely no respect for him and would prefer to keep clear of him. Anne Mac Gyon has a certain cosmopolitan taste which I can't decide on. Ought I to cultivate it or not? She may be right I can't tell?

Sunday June 11

Church. S.S. in even. then was the Children's Service at Chapel. The day went along well. Hughes was nominated at Chicago yesterday by the Rep. Conv. In his Statement there was a note that I did not care for. It sounded bombastic and a little too facile. I am now decided to vote for Wilson. I am open to conviction. I am no "dyed in the wool" fan. I do not see where any great improvements could be made in the present ways

played tennis before breakfast. Made a trip to see about getting a parole paper filled out for a man now in prison. Had lunch at Lazarus and work in p.m. I had a swim and walked out to Sugar. Read to A.M. P. in town. I only got a 2nd general in Sem. last year. Well I was ready to any load all the year. There is much about it I do not like at all - I wonder what God has in store for me.

Helped Mrs. Judge Black distribute posters for the suppression of tuberculosis. 2 p.m. I finished up getting the parole mail out for the man at the Reformatory - read and finished a little article on John Clubb - Had supper over at the office with A.M.P. and her class of girls - walked out and read to her in town.

My work at the Sem. last year was not the best ever. Next year I want to do better. I was so sick at heart most of the time that I could not do much

arose early, went over to A.M.P's office and wrote out an essay on John Gilt. I hope to send it in to some periodical and get it published. I secured a cat also, which A.M.P. had a demonstration with showing all its innards Had Bible Class in town. Lolo & I went for a while to a party at the house of one of our Chapel. The day has been very active and withal very worth while I believe. I hope my writing will continually improve that I may get it published.

Thursday June 15

went up to Juvenile Court and looked over the prospect of my being able to get data which will help me in any work I may want to do next year along sociological lines. I would like to make an interesting and instructive study on the basis of which I could do some good writing. My dream is to be a great Christian Sociologist. That is the ideal of my life. I am instinctively trying to work things out to that end for the glory of God and His truth.

Friday June 16

wrote out outline for a sermon for Sunday even. It rained down rain for a good while in P. m. We went out to Kelton's and read till supper time. In even. we went down to Recreation School to hear. Last night Wilson was renominated again at St. Louis by the Dem. I look for a great fight between him and Hughes and I have a notion that Wilson will win out by a close margin. He has a good big fight on his hands however. It will be fine

Saturday June 17

Setup in the strenuous life after noon and lunch. Events are getting very interesting. The political state of affairs is particularly absorbing. I cannot see where there is to day any real issue between the parties. Both Hughes and Wilson are men of sterling character and "Americanism" seems to be a dominant characteristic of each. Both, in terms of ministers they represent about the finest product of our American life. It's something about which we can rejoice

Sunday June 18

Went out to Broad Street Church and spoke to the S. S. regarding the opportunity of work in the Vacation School this summer. Church - S.S. 11 a.m. Preached in the even. Service went off fairly well. I saw where I could do a lot better and perhaps that is the best thing I could have learned. We are mobilizing our troops to send them to the Mexican border. I cannot tell what the outcome will be. Wilson is going to give Huerta a run.

Monday June 19

Attended to a case in Juvenile Court for a good share of forenoon. We went out to Indianola Park in early p.m. and took a swim in the big outdoor pool there. We had a hot dog and pop corn and rode home on an open car. Morris took another spell. The even. was spent quietly at home. Rec'd a very nice letter from Dr. Kennedy relative to an article I sent him to print in the "Presbyterian". I do so hope that I can be able to get things written that are worth while and will one day count -

Tuesday June 20

went up to Juvenile Court and saw my man properly treated by the court. Went down to Chapel and painted a sign for the red and blue contest. In p. m. I spent most of the time helping with an outfit of steel trikes. In even after a very delicious dinner at the Vendome we went over to Hames ha cottage prayer meeting. On the way home we stopped and had a wonderful cantelope with ice cream inside. Troops are beginning to gather here for Mexico.

Wednesday June 21

Worked at chapel a large part of day. Wrote out some letters. We had our dinner at the Vendome and then went to pick out a room for the Folks. Had a Bible Class at Chapel and walked out to say good night to my Sweetheart.

There are many soldiers about the streets. The Republican State Convention is in session. I dropped in at the Neil House which was humming with excitement and business. I think Wilson is going to win.

Thursday June 22

went up to Republican State Convention in a. m. and was interested in the mode of conduct employed there. It threw a great deal of light upon much that I had heard and read. Pm was used in forcing out of the South Side Settlement and a Hungarian. Lo went out to Groveport for dinner with Mr. Palmer and his family. I am able to accomplish a little every day but not so much as I wish I could often.

Worked at Chapel - went to meet Folks with Anne MacGregor at 1:45 p.m. We got them located at the Hartman Hotel. Had dinner at the Neil House and then walked down to Chapel where they were having a social.

I am hoping to be able to lay the foundations for a great and useful life by steady accomplishment. I have a lot of things to overcome and make up, but I believe by God's help I can do well and end my life with satisfaction.

Saturday June 24

After we all had had breakfast at the Jendons Irene off to a meeting on the Summer Vacation Bible School- Lunch was had at the Southern and P. M. spent indifferently. The dinner was a great event, being made by Anne MacPherson and eaten in the office- In even. we stayed with the Folks in their room- This day was the 25th anniversary of the wedding of Mother and Father and for this reason they came out to be with us-

Sunday June 25

Ch. Communion with Folks and Anne MacGregor. SS. Church at Chapel in even. I would like above most everything to be locked in a tall cool stone tower, fed only bread and water with a little fruit, and not be allowed to see a soul. The stone room would have lofty narrow windows and walls lined with shelves of books. There I could spend six months in solitary confinement as my great delight. I would be a stronger man at the end of it.

Monday June 26

Spent the day with the folks at the hotel and elsewhere - The weather is hot. Sometimes I feel a great deal of dissatisfaction over my failure to seem to be making progress. It looks at times as if I were not going to be a very great success. Maybe that is a healthy sign an certain divine discontent given me to keep me plugging away even harder - It is so easy to fail that it is hard to avoid it.

had breakfast in office - I took the day as a vacation day and spent it with the folks - It was pretty much filled with discouragement in my own mind. In a way it looked as if I had taken the wrong route during the past weeks. Maybe this was but a temporary thought - In every trail there are places where the heart fails for a brief time and what seemed to be familiar landmarks assume a strange and unknown appearance -

Wednesday June 28

Arose betimes to see Mother and Father off on the train for New York State - Worked and played the day out - Read a good section in a life of Wm McKinley by Chas. Olcott. In evening we had a most wonderful visit.

The Mexican situation is very tense just now - many troops are already here in town. We saw a stand of colors presented to the regiment in p.m. Some of our soldiers are being held as prisoners. Wilson has demanded their release surely.

Thursday June 29

A.M. was taken up with a conference on vacation school work - P.M. had a part of its time devoted to the same thing at chapel - We went through the "Safety First" Train which the Government is sending throughout the country.

The meeting in even. did not seem to be very much. I get very discouraged lots of times here. I wonder if I am going to ever be able to get on to the everlasting purpose of our souls -

Friday June 30

Attended conference in a.m. Worked p.m. and in even. made a string swing as a model to use in Summer School. Found time to read some in life of Wm McKinley. June has gone, tho some of her beauties were lost by the city's oppressiveness. June in the country among the hills is the June I love best. The life of quiet study doing a few big things is sweeter than this life of doing so many little things and doing them only as they come with no plan -

Had breakfast with Mrs Mac Gregor - worked at Chapel most of day making a loom. It would be a well worth while thing if some time a big loom could be made upon which carpets could be made. I believe the time will come when among certain classes home industries will again appear - A family that is thrown in upon itself immediately becomes more saving and I think more industrious. I would like to see home industry encouraged -

Ch- S.S. had a good swim which was a relief from the extreme heat of the day and put me in shape for the evening work- we held the meeting out of doors and in many ways it was better. The air being fresh and cool everybody stayed awake better.

I suppose camp is now begun. In many ways I would like to be there although I know I have been dissatisfied there very often and without Ann MacGregor it would be hard. Then I have both her-

We held the first session of the Vacation Bible School - Some sixty came. On the whole I count it a success for the first day. In P.M. Anne MacGregor and I went out to Camp Willis. Our army in the field is not a very impressive sight. Compared with European military organization we are not brilliant, but I think on the whole we are better off than they. I feel rather proud of the fact that so many men have such steady and remunerative work that they do not want to join the army -

Had breakfast at the Hartman Hotel, went out to the house and read all day Prof. Ford's book on Woodrow Wilson. It was well worth while and I am more firmly set in my belief that he is the man for this country for another four years-

We had supper with the McClures. The day was not like any 4th of July I have ever spent. no noise and no celebration just reading a book all day - Perhaps we are getting more serious.

Attended to the duties at the Daily Vacation Bible School. Also helped in p.m. by taking the boys to play ball. In even. I wrote out a review of Prof. Ford's book on Woodrow Wilson. I do not know whether I can get anybody to accept it or not. I'll keep pegging away at my writing and perhaps with God's blessing I shall begin at last to get the recognition I want. I hope this summer of activity will do me good for except for Ann MacGregor I would rather be at camp, although I feel there a sense of fruitlessness at times

Thursday July 6

D.V.B.S. took the boys out to the play ground 1½ p.m. Little boys are about the same the world over I guess. Those from the neighborhood of the Chapel are not so soft and winsome of spirit. There is a hardness and sophistication about them, but that comes from their environment. Perhaps some are ordained to salvation by their birth. It is hard to properly apportion the influences in a child's life. Yet many of the great ones of the world come from surroundings of the neighborhood type.

D.V. B.S. Went over my review with Anne Mac Gregor and took it to the editor of the Dispatch who accepted it and agreed to print it. Such an outcome was most flattering.

Then we went down to Chapel when I helped finish up an iceless refrigerator which Anne MacGregor is making. We had dinner and went out 5 hen house. Lunch so very sleepy that after reading a chapter of Scott's Count Robert of Paris and falling asleep in my chair I came home.

Worked down at Chapel. rd. in p. m. My review on Ford's book appeared in the p. m. paper the Columbus Dispatch. I am glad that God so smiled on my efforts. I am dreaming of being a great and powerful writer. I want to count for a lot in the world for God's truth. I want to stand in such authority that I can give the lie to a lot of the falsehood that is going about for truth. I want the championing of Christ's religion and that of Paul, the real old stuff.

D.V. B.S. in P.m. took the kids swimming. They had a great time. Wrote out some ideas on the school for used in a newspaper article in the Sunday paper. We might as well put something good in the paper since it exists and then is no chance of putting it out of business.

We are getting a spell of hot weather now that is hot. It begins to wear down on one. Perhaps God will temper it to the shorn lamb. In time of labor here draws near with close all the time.

Wednesday July 12

D.V.B.S. baseball in p. m. in even. we dropped in to a very entertaining movie. It was unusual for this day. The hot spell remains. I am now reading a life of Jno. F. Hoar. He was a typical product of old New England. His autobiography is pretty interesting. I like such literature about the best. By learning the days of old and how men thought is the best guide to the present problems that confront us. I want to know all about the past.

D.V.B.S. Had breakfast at the Hartmans and we went early to chapel so Anna Mae Gugor could bring her useless refrigerator up to the office. In p.m. I spent most of the time at the typewriter and the last hour or so reading. In even. we went down to Chapel and I found myself signed up to conduct the meeting. I had a feeling that such would be my fate. Here I feel that I am doing a lot more than I intended by being in camp. That is a source of satisfaction.

Friday July 14

D.V.B.S. took boys swimming in p.m. went out to Camp Willis towards even. It looks quite military there now. The men are mustered into the Federal service and they are all regulars now. We have a peculiar system now. Perhaps now it will be changed. There have been a good many delays and hold ups but on the whole they have done well enough. Things work out so well if I am only diligent and trustful in God to the end.

breakfast at Hartman- went out to house and read book of Isaiah. S.S. Chapel in evening. The days are gliding by. We found the dining room where we have been eating to have closed up. It winked out. It was a fair place too. I pray that I may prosecute my work with energy this week. That always brings good results. It is a matter of driving yourself a little all the time and doing things instantly.

D. V. B. S. conference in P. M. We tried a new dining place and found it to be fairly satisfactory. It was funny. One thing we have decided, that once we are married it will be a long long while ere we ever go within a restaurant or boarding house to eat a meal. Home will seem like a very wonderful place. To-day was very well spent. I tried to do the things I had in mind as necessary and found a feeling of satisfaction in thinking that the various things were done.

Tuesday July 18

D.V. B.S. took to go swimming in P.M. These days are intensely hot. It seems strange to be in a city during this part of the year. It is keeping me on the job and not allowing me to get cobwebbed over. If I am only able to stand it and not cut in to my physical strength so as to hinder my work next winter all will be well, for I believe I am growing under the discipline of such a life as I lead out here

D. V. B. S. I rode around with the press photographer to get some pictures of the various schools. They are to put them in the paper at an early date. I caught a cold somewhere and in the even. I felt most unwell. I guess I have eaten something that was not intended for me or which perhaps I did not treat in the right way. These hot days are a trial. They will last a good while yet too. This is summer.

Thursday July 20

D.V.B.S. went and took a turkish bath in p.m. I felt mean and ill and I thought that that would help me. I guess maybe it did although I did not feel so very good all day. Anne MacRae made me go to the Athletic Club for dinner which was lovely. She rubbed my head and I came down and went to bed early. She is a wonderful Sweetheart and it makes it easy to be sick near her.

Friday July 21

D.V. B.S. my birthday. Unfortunately I did not feel the best. A little indigestion seems to be hanging over me. Anne MacGregor and I were invited out to dinner but I could not go and she had to go alone.

My time on earth is going. The days fly into years and so small number of them have now passed. The future is all unknown. I have hopes and dreams but it is all in God's hands and I know not what the perfection of His plan is. I pray I am a vessel chosen unto His glory.

took day easy on advice of Doctor. Went out to Univ. in a.m. read Middlemarch in p.m. had dinner at Athletic Club. Toward night I began to feel a bit under the weather, but it is but fatigue I guess I guess put my system on the sick list. I have lost ambition temporarily and await a speedy resumption thereof. These are the hot days and the world is tired. Just the time to lie up and do it.

Sunday July 23

Ch. Dr. Joseph A. Vance of Detroit preached a very fine sermon at Bd. St. on "Miracles" and their rationality in the Christian history. S.S. in P.M. Miss Lois Parsons took me down in her car because it was hot. I did not go to even. ch. We went down to Athletic Club for dinner. You don't have to tip the waiters there and that makes quite a difference in the price of a meal to folks like us who are on a budget. In even. Anne MacGregor read me J. H. Page's "Jane Chan" a delightful story of old Virginia.

Monday July 24

D.V.B.S. Dr. Borrill the great grand daddy of all D.V.B.S's came to see us. In p.m. the weekly conference was held. Later I went out to Kultcisand read Mark & Rubrique Reformation until dinner. We went to call on the Palmers in vain, but found them not at home. I feel very much better now. I think the attack of indigestion has passed on to the next one. I am glad for I want to be in good form when I do the work at hand.

D.V. B.S. wrote a part of a sermon in p.m. In even we finished the first vol. of Middlemarch. It is a very interesting book. George Eliot has a wonderful power of saying things in a vivid way. She describes a thing in just the way you always felt it was yet never were quite able to express it even to yourself. These days are very profitable with reading. I have done much more of it here than ever before in a summer. I am kept stimulated by the work and atmosphere here.

D.V. B.S. worked at Chapel part of p.m. We went out toward supper time to the campus of the Univ. and had our supper on a bank near a cool spring. We stayed about until time to see the Coburn Players in Hamlet near by. That is a great play. It is a bit hard to listen to because its lines are so shot through our daily speech as proverbs that it produces an odd effect to hear them all connected in the play, but it was fine.

D.V.B.S. took kids out to play base ball in p.m. It was warm enough in all conscience. Read Middlemarch in even. Out on the State House yard they have a provost's guard camping from Camp Willis. It was pay day in the army and they are going to look after the boys so they spend it. They get something like 50¢ a day. They are given food and clothing and so this can be all spent for personal needs or for what is not needed mostly I reckon.

D.V. B.S. took boys to swim in p.m. With all the heat I am feeling fine and like doing great things. & thank the Lord it is so. He is taking care of us day by day and I am sure that in the days to come He will give us a time of rest and refreshment that we may go on to greater things.

I pray my Sweetheart may be kept safe from the heat. She is too wonderful to be dragged out by work these hot days. God will take care

The Chapel S.S. had a picnic. Needless to say it was a day of mixed activity for me. I am glad it is over. It marks the beginning of the end of the summer's work. I am getting full of ambition for the winter's work. The time here has opened my eyes to great opportunities. I have not had a chance to fall into a lethargy. It has thus been a very valuable thing. I think the coming year if I am spared will show good results.

Sunday July 30

Ch. at Broad St. S. S. Dr. Palmer asked me to preach for him on next Sunday morning. I told him it was a large order but that I would love to try to fill it. In even. I preached for Rev. Harry Barr at the Crestview Pres. Ch. on the n.e. outskirts of town.

I pray for strength for Anne MacGregor and myself through these last days and for a beautiful little rest before the new work comes upon me.

Monday July 31

D. V. B. S. wrote on my sermon in p. m. a big wind and thunder storm came along toward evening and cooled it off wonderfully. In even. we made a party call and tinkered with the sermon. I am enjoying its construction very much. I pray it may do that which the Lord wants it to accomplish. If it does it will be a great success. Perhaps it will help just one soul. That is enough and pressed down.

Tuesday Aug 1

V.V.B.S. took boys to swim in p.m. worked on sermon all of spare time. It is much cooler now and infinitely more livable. The summer has been a great experience for me. I think I have grown in every way. I have had a taste of real life all on my own resources. Anne MacGregor has proved what a great help she can be to make my life it best. I like it in some ways. I think I thrive on work. I am happy when I am busy. I want to keep busy as much as I can through all my life. I find the great men of this earth were all hard workers and kept forever at it day by day.

Thursday Aug 3

D.V. B.S. wrote out sermon all p.m. Paynes went riding. Ice cream in even. for first evening since I arrived here I did not go out to the house with Annie Grego. D.V.B.S. very little energy was put into my efforts today. These last few days have begun to get under my skin. The work is sagging now a bit. The hot spell we have passed through has been trying although I did not mind it so greatly. It was hot all the time but when your mind is made up to it it becomes much cooler that way I know —

Wednesday Aug 9

D.V. B.S. practiced for commencement. I began to wish that I could leave a day earlier and I began to work with that end in view with the result that I achieved my desire - I buried the good news to Anna MacGregor - This old town is dead as death with Anna MacGregor gone I ate my dinner in a new place and it seemed as though I were a ghost haunting the scenes of departed joy.

It has been hard and long and there have been many hard things to meet but God has brought me through all the affairs and has given me a good issue out of all my work. I praise Him.

Friday Aug 11

Met Anna Mac Gregor at Albany at 2 a. m. had breakfast and went up to Williston. It was a joyful entrance into a world of exthemeral well being. The remainder of the day was a relief from heat and all the woes of life amid the deep peace of nature. It grew colder and colder until there was that ineffable glamor of Fall in the air & all things seem to have formed together in harmony —

A wonderful day. We had a splendid ride off west through some wonderful country. There is a peace about all that feeds the soul. It gives one a great full joy to enjoy it all for a time. The Robinsons are a most delightful family. I am glad I can claim relationship and enjoy it to the full. They love me with a genuine affection and I delight to see them and have Anna Macgregor see them. God is good to me.

a quiet day ending with Vespers - The air was cold - we climbed up Raspberry in P.M. After the rest went off to bed Anne Mac Gregor and I had a beautiful visit before a dying fire - These days are full of deep joy and satisfaction. The food here is so plentiful and so good that it adds weight and gives a sense of well being that makes a good basis for the rest of the things that come along -

Monday Aug 14

Instead of taking a long motor ride over to Paul Smith's, we went on a picnic up Pok-o'-moonshine - Jack Sarah, Robt McCready, Fritz Freeman, Mrs. P. Alex, A.M.P. and I went - we had great fun - Four of us went to the top - The view was most wonderful - For miles to the west the grand panorama of the Adirondacks, row range behind range. Tuesday Aug 15

A day in camp with only the lovely ordinary things to do. Camp affords all that one needs to recreate the mind and body - It lasts for a time A whole summer would be ill spent here but a short period of time is the most refreshing thing I know of - Had dinner in town at Roundwood - Mrs. Wescott came and sat at my left. She is a most delightful person - I was very glad to see her -

Wednesday Aug 16

Mrs. Westcott and her daughter went over to Jasper Lake in the car. We spent the day very happily. In the eve. the general opinion demanded that we go down to a dance in Williston. This was much to my horror. I can not see how people in their right minds can leave a beautiful spot to go down into a hot room and to miserable for long hours at a time. Folks are a strange animal yet the world is full of them.

We received from the dance although the hour was late when we retired. After dinner we went over to Roundwood and had coffee - That is a delightful situation but I can't for the life of me see how David MacCready can have to settle down and live such an existence. It would be all right for an old successful man but for a man just starting it is not very much.

Spent day suffering a slight indisposition. Helped Anne MacGregor write a letter to New York to get a position. Went on hill in p.m. for a walk and stop at the Tree - It was the first time that Anne MacGregor had been there with her engagement ring on. It recalled all the past years when I was so worried and in doubt yet hoping and praying that she would one day find that she loved me. God in His providence brought it to pass -

Saturday Aug 26

I am looking forward with great ambitions and hopes for a brilliant year full of work and a bountiful fruitage. I pray it may come to pass that such will be my lot-

Did not go to church. Anne MacGregor read Ireland Burns to me. A heavy storm came along in the afternoon. We all talked and Father read some poetry in the evening. I am wondering whether or not God will work things out so I can spend the winter months in Scotland. I should love that more than anything and I believe that it would do me a world of good. So be it Lord

Monday Aug 28

Spent day within doors - Father said that the secret of not spoiling children was not refraining from doing things for them but by at all times making it evident who was the authority in the home - This sounded like wisdom - Father has a great fund of sheer wisdom that is very pertinent - His long observation has given him the opportunity to gather from many instances the generality -

Tuesday Aug 29

We awoke to a lovely day- Towards noon Anne MacGregor and I climbed the hill and went to the Tree for a few minutes - It was as always a wonderful little experience and left a thrill in the heart - We read, visited and played together - The day ended in the starry night. Read most of day in Morley's Gladstone - I was greatly impressed with most of to-day's reading which was of the period of the '60s. The detailed description of the war of '70 was specially interesting. Morley has a genius for telling a thing in a clear way - Gladstone is very near to my idea of a statesman. Wednesday Sept 27

Sem. in p. m. 33 present
we went down to Germantown to attend Arch Campbell's wedding. The bride was a beautiful girl. We had a good time, came over to our home and spent the rest of the night.

It was a sudden move for me, but I thought if I had asked Ann Mac Guger what to do she would have said go by all means. It also made Arch feel good and will send him off with a pleasant feeling

Thursday Sept 28

Sem. played tennis in p.m. over at Eidman's. We had as good a match as I have been in in a long time - It gave me a good work-out.

In even. the club had a little something to eat and we sang a few songs - These first days are a little broken, but it soon settles down to the routine and I am keeping abreast of the times very well with all the extra things to do.

Sunday Oct 1

Communion at First Pres. read Greek N.T. went with Jack Carruthers' down to Hayes for tea and had a lot more of interest about Scotland. Church again in eve. The day has been very happy - I want from the bottom of my heart to make a real success of this year, in every sense of the word. Show where alone can come the needed help and strength

Monday Oct 2

Played tennis in a. m. decided it was a very poor practice to begin a Monday morning with. Felt poorly all day as a result. Tutored classes - did some desultory work in even. I am very well pleased with the way everything is going. The hour before dinner was spent walking. I am glad I am to hear that hour every day free from a class - I wonder I could be any S.

Sem. lecture in p.m. on Person of Christ – It is going to be a fine course I believe, Pl. tennis and was badly beaten. I did not seem to have the form at all. Saw Howard Ransom up town and brought him down to dinner. Looked for Bill Sloan but he was not around. He came in and went out of Town again. Club had a prayer meeting in even. Made out a schedule tonight to be Low I claim

Friday Oct 6

Sem. read first vol of Schurers Hist of Jews. This a wonderfully interesting thing to see the scenes which Jesus was familiar with slowly unfold, to see with how clear contact the characters & famous in the N. T. came with the great figures of Rom Hist. It is queer to think of Pompey Antony & Cleopatra in Jerusalem. Such was the world into which Jesus came. Such a man was Herod.

Saturday Oct 7

Sem. left 10 a.m. for Phila. met Jack C & Fitz Fagen, had lunch - & I came out & the Lowe and Cal went down to Univ. Museum where we spent a very instructive hour or two among mummies and old tablets from the Land of Nimrod. Esther and Eliz. Shedwick came to dinner which was a great contrast to say the least. Lenox came over in even. and I read to the company. A very good time tacking A.M.P.

Sunday Oct 8

We walked around in park before Church - made a call in P.M. Father was away in Mercersburg preaching to-day. Girls were in to Supper and we went to church again. Later we sat on Lloyds porch for a time. If only Anna Mae Gage were here to make it perfect. It can never be so without her. I hope soon she can get an easier task to do.

Monday Oct 9

Sun. a great change in the weather took place. A German U-boat came to port here and leaving anchorage went out and sank six vessels. A good deal of excitment has been occasioned thereby. So far as the Brit. ships were concerned the U-boat was seemingly well within its rights. The two neutral vessels were a different proposition but they were not U.S. boats so we do not have to complain -

Tuesday Oct 10

Sem. tutored – a most wonderful day. The moon is sending down a perfect flood of light. I wish that Miss Macgregor were here in the last settled at some leisurely pursuit & study. It would mean so much to her and build up her nerves and give her just that poise which she needs. A year with her in Scotland would also do that. Sol Frank both may be –

Sam. went down to Lake and watched rowing get underway. In aft. I went over to see Bill Sloan and walked around with him. Dean West told me to day that I could have a scholarship in the graduate College - This will enable me to get an M.A. at the very least expense and will make a lot of difference.. It will be a gift in all but the work. I thanks for it -

Sem. went over and began to organize my Physics work. Met Dr. Munro and let him map out a plan of work in Physics. Had Schurer - called on Miss Harris. The U-boat has not been heard of lately - It was a daring thing to do. There is no end to the ingenuity of mankind. It invents constantly

Sem. Ann Mac Fuger

Wrote on essay, rd - Sem classes - Yesterday a boy in college died of poliomyelytis. It fought it from a bit and I have been wondering all day if I were about 5. Show symptoms of it.

It is a case when I can only trust that God whose I am will use me until He has done with me when He will call me home to Himself. I have been lonely for Anne MacGregor too to-day - I would I could see her.

Tuesday Oct 17

Sem. wrote an essay - had letter from Miss Baldwin from France - went & Prof. Munro's first meeting. It was most interesting & hear him talk. His course ought & widen my conceptions of things. He knows how books have been made. It gives one a new power & understand how a book was made. They gain in fascination and lose their awe. This a good improvement all objects

Wednesday Oct 18

Sem. pl. ten - 1st Crusader dropped in about 10 pm and stayed till half past midnight. So I did not get to bed as per schedule. The well ordered ie. routed life has no place for extras and extras are a large part of life. Therefore while we must have a schedule we must be ourselves well organized enough so that we can step out of our orbit and not lose our direction or ability to control circumstances -

Thursday Oct 19

Sem. studied and wrote essay all day. Attended the first of Van den Ven's classes. I think it is going to be good when we get into the work itself-

Jack Westcott stopped in in the even for a talk. He is a most attractive boy, says he is going over to drive an ambulance this winter - It seems like a good deal to give up college to do but he has the fever and feels his life is wasted over here when he can serve over there.

Sen. studied. It is now looking very close between Hughes and Wilson. There seemed to be a period of Hughes ascendancy following a period of Wilson popularity but once again they are even. I am hoping that Wilson pulls out ahead. It would be a great blow to the G.O.P. They need a few such blows. They think that G.O.P. government was one of the things assured us in the Constitution

Sunday Oct 22

Ch. Dad had a fine sermon and the music was wonderful. The choir sang the Inflammatus of Rossini's Stabat Mater. Mrs. Feland made it so as I have never heard it so ever. Sem. discussed pros and cons of taking full graduate work this year or taking M.A. in course. It is eminently more wise to take it in sections and get out of here (DV) with M.A., P.D. and a fellowship of $600. in May 1916.

Talked politics in town for a while. It does keep you up when you meant to go to bed, but I guess it is a good bit of intellectual gymnastics that tightens the muscles.

Sem. Vanden Ven's class. I can't make out yet whether that class would be very worth while or not. I can't take but one this year and I want to get what is best for this year. The three I have started are all splendid in a way but I want to do the best in the long run. The day was fine. Heard of the safety of the Lusitania on earth. She's wonderful

Friday Oct 27

Sem. pl ten with John Hayes in semi-finals. We were victors and now await the last test. I am glad for my tennis has been neglected for a good while. The class with Vanden Oever was especially good. We talked over the conversion of Constantine and drew a very fair conclusion. I was interested to see how unanimous the opinion so agreed. Not much other work was done. Called on Mrs. Stevenson in town and had a [illegible] him.

Sem. class. prepared for game - went down early. Score 7-4 in our favor. Mother and Father were there. They came up with the Forsters.

Had dinner at Princeton Inn with Mrs. J. M. Hood Sr. It was not a very illuminating time. I believe she is still suspicious that I know more than I care to tell. She is sure Dr. P has more to say. I have not. He may have -

Sunday Oct 29

Chapel Dr. Voe preached long. What he had to say would have been tremendously inspiring had he read it alone to you in his study. I had lunch with Mrs. Hood and spent a long afternoon with her going over and over all the details of her unhappy experience. I can understand her feeling of despair and doubt. I can't help her to any new light of myself. If anyone knows more than I do I am not aware of it. I don't think she more than even at Stevenson's

Monday Oct 30

Studied classics in p.m. pl. ten. Began to read Eusebius to-day. I was very much impressed with his mention of a letter sent from a certain prince of Edessa called Agbarus to Jesus and the answer which Christ made him. E. gives the two letters in full and they both look like what might well have been penned. The letter from Jesus is not different nor yet a mere repetition of anything we know.

Tuesday Oct 31

Sem. class with Vanden Eem in p. m. Dinner with Donald at Quadrangle Club - went down 5 hrs. Stevenson's is a party in honor of all Hallowed Even. It was a very nice thing in its way.

I miss all the fun not having Anna Mae Gregg & Hannah such things. It makes everything lack that part which would make it jolly & merry. I want to be able to see her often and here we are so very far apart all the time. There is a reason.

Wednesday Nov 1

Sem. met D. Vandenburg, his class is intensely interesting. We do not seem to do much but we get over a lot of ground and the ideas left in my mind are very clear. I think he is a great man in his line. I am learning the ways of scholarship which will help me all my life. Learning is a strange thing. How can Jack do for Suppose some of the ideas I get so from pupil & teacher sink through the ages.

Thursday Nov 2

Sem. went to Mt Vernon and received from him two fat volumes of Augustine's Civitas Dei. I hope it will prove to be an interesting piece of reading. It certainly ought to be.

Donald came over for dinner. Went to hear McAdoo in Democratic rally - Club prayer meeting afterwards with a business meeting attached which got me shot by one member. Get along till a meeting comes and then get it.

We went to church and heard Father Preach a splendid Sermon on "Thou shalt devour my sons thy Gods, this death". In fact so much was worked on this Sermon In even I spoke at C.E. and Hal, Jack and I split at church in evening. It was a great event. The girls looked on as judges and came around afterwards with words of praise. So goes life.

Left Chula Vista at 9 a.m. arrived in Oceanside just before sundown. Expect to see the sea daily. I would like to see the ocean this week. I would like to hear a little preaching. Upper Oceanside. I would not, I do not, like to see enthusiastic crowds. I want to know all I can in preparation. That helps more than any other human quality. So may it be.

Election Day. I cast ballot no. 145 in prec/ here for Wilson and Marshall. Sen- and stu. went up 45 was returns in even. Hughes led at first by a wide margin but every new report cut down this lead until 1 a.m. (Nov 8) when I left and it was not decided at all. It has been a very close thing all along. The election is still in doubt. All day things slowly swung over to Wilson but no final result was reached. It is a great thing to think that it takes so long - The Wilson Admin. has at least created a new alignment throughout the country 2 or 3 million normally Republicans have been attracted. The best man possible has not been able to work up any great opposition. It is no repudiation certainly Wilson has made a strong run -

Thursday Nov 9

Continued to watch the returns and see that Wilson came nearer and nearer to a successful election. By evening, it seemed more certain that he had achieved his point. I felt a great satisfaction. Father voted for Hughes, but on the personal reason of his friendship. I feel it is better not to give these grasping foreign nations any reason to believe we are not self possessed and able to dictate our policies

Friday Nov 10

A beautiful day in every way - It was a hard day to work and we did not do very much of it. The girls came up in the p. m. and Dear Elizabeth John and I had dinner at Prof. Fostacher's.

Thursday Nov 16

Sem. finished working on ushers cards. Had my first reading of St Augustine with Dean West. We had it over in his study in the Graduate College - I enjoyed it very much - He has a good head in some lines and this is undoubtedly one of those lines.

I can't quite make the Dean out. I hear many and conflicting reports about him. Probably like all the rest of us he is a mixture of good and bad with bad on top

Friday Nov 17

Sem. broke away from work to go over and watch the stir on the college campus incident to the Senior Promenade and general festivities which are on now till the week ends. Ollie came down in the evening and we went to the Glee Club concert. We met Talley and brought him out to my room. The two of them slept in my room and quite filled it up.

Saturday Nov 18

Rose late day - went to class and then off to tend the watering. Had hard enough work for some hours but everything went off well. Ole helped with explaining how to take up the Red Cross collection -

There was a tea dance at club and many pretty girls were there. I wished that Anne MacGregor were there. How much she would add to the good times. So soon life

went over to chapel in college and heard Bishop O'Connell of Denver preach. His theme was the need of putting Christ's principles into action, the necessity of being righteous. It was all true but it was fallacious and deceiving because he did not say how anybody could possibly accomplish so great a thing. One felt that he probably only meant moderate goodness that was easy.

Thursday Nov 23

Sem. read my essay for Dr. Warfield to the class. Enjoyed it after a fashion. John Mott dropped in in the evening for a while. We went over to see Mrs Stevenson's sister Mrs. Simpson She is a most attractive person.

Wish I could look forward surely to seeing Mrs. Macfayden next week. It does not seem possible in some ways yet it is so very much at my heart—

Sem. The week grows easier towards the end there. - I had only two hours with Dr. Warfield, one at 9:30 this morning and one at 3:00 p.m. He is a great man. There is a sense of humor in him although it sparkles very slyly. He is the theological professor at all times and you are quite conscious that he knows a whole lot more than you do - He is a great teacher and has a great mind.

Had the one class which I fall heir on Saturdays. Wrote up the notes and then read. In p. m. Read different things. Forgot to go over to a reception given by Pres. and Mrs. Hibben at Prospect. That was a foolish break on my part.

also - The days are
gliding by - no one
by one. I have plenty
of work to do now
and hope to be busy
all this week. I find
great solace in this
hard work - It
supplies a need. I
come home at feeling
full and now ready
to speak and by the
aid of Jesus Christ

Tuesday Dec 12

Sem-unity has begun- It is cold frozen and snowy - worked all day and I have enjoyed it. Vanden Heu in p.m. prepared for 1st in Church Hist on period from 594 – 1049 Reg I & Reg III (Hildebrand). It is most interesting history. There is a romance about history which grips me. I could read on and on just going slowly and drinking in all the past - we must use it now for christ -

Sem. test in Ch. Hist. Van den Ven - lecture in even - dinner at Hayes - It was a very nice affair - letter from Emma Mac Fuser - I wrote a lecture to her on the subject of dancing. She is fond of it and I hate it above most things of this world. I pray it have her do it. It seems as if She belonged to me and it drives me to fury to think of some fink holding her in his arms and galloping about the floor -

Thursday Dec 14

Sem- felt ill all day- "something I ate" no doubt- went Anne Mac Fegan a dissertation on dancing- I am only in doubt about that popular pastime. I don't know whether to have conscientious scruples about it or not- It is a hard nut to crack. Good people do it- Anne Mac Fegan loves it and she is the best person I know- I am indeed in great doubt. It can go a good reason-

Friday Dec 15

Sem - it snowed hard all day - I plowed out a path to the gate and we went over to Bruenstin - It is fun to read it with him. It is a very genial soul when you get him alone. I like him a lot - I can't make out why he is so nice to me - I do appreciate it indeed - Club banquet held tonight. It was over late and so it is over late now -

Saturday Dec 16

Sem- worked a bit - left for Phila 1 1/2 - Went to Bayly, Banks and Biddles and spent a very lovely half hour or so picking out my Sweetheart's Xmas present. It was one of 3 plates of a most wonderful simple design which I know she will love very much. It was new & me oh so plain and rich. It was like her very own self. Just wonderful

Sunday Dec 17

Church - I wore my new cutaway clothes and felt like a dweller from another world - Made candy in p.m. Elizabeth came over & Peggy became Esther was there - Went to church in eve and heard the choir sing Isabel's Nativity. It was a very beautiful piece of music - So forcible. I thought I my Sabbath I very great deal to day

went down to the
Union Pacific Library
and worked with
some old and musty
books on the precise
date of Cyril's Catechetical
lectures. Vandusky
wants me to write up
the results of my work
and have them
printed - It is a
very interesting
study. Spent p.m.
reading and down
town - Came back
here to Princeton
in Town - wanted
to be in bed by 10 p.m.
but boys came in -

Sem - studied in p. m -
went to Mr Brown
with John Hanes
in even - The air is
very cold. I feel
a bit tired - The
days are going fast -
I wish my Sweetheart
was safe here in
the East somewhere.
I shall never be
contented so long as
she is out there with
nobody near to
whom she can turn
or whom I trust
in the least - That
makes the days
long —

Wednesday Dec 20

Sem - studied - had
tea at Hayes - spent
a dull evening at Dr.
Wilson's Torturing
over Hebrew. He is
the dullest man I
ever had. He has
good ideas but he
has the most
desperate way
of pulling his
ideas before you.
It is discouraging
in the extreme. It
needs to be treated
like an old MS, first
edited by some
capable and
energetic soul.

Sem- packed and
left Lincoln for the
rest of the year I
trust — The fall has
gone quickly albeit
unprofitable and I
ought have done
some good things.
The work has been
most pleasant
and good in all
ways. I have
enjoyed the hope
that I have indeed
been called of God
unto a definite work
for Him. Despite
my shortcomings and
what it has given me —

Friday Dec 22

This was Christmas Day for our family. We had a beautiful time Esther came over in time for dinner in the evening. The Folks gave me $50 & Grandpa $10.50 I was put in a financially comfortable position to take a trip. Esther & I left at 9.30 for Rochester - The day of my dreams has come - The rolling days have brought me the immediate prospect of seeing my very own Sweetheart

Saturday Dec 23

We reached Rochester some time hours late - but I found my Sweetheart here waiting for me. It was worth all the waiting to have her rush into my arms and hear her voice say once again "I love you" - The day went on in joy - what happened is of little consequence to be with Anna. Mac Joy makes all other things look small -

Sunday Dec 24

Arose rather late and went to church - In pm Ann Mac Gregor and I walked out East Ave met Dick and Margaret and went to look at their presents - It was an enormous and expensive collection It was somehow too large and a little too conspicuous so that there was a feeling that they formed a real part of what was taking place The allowing for

Ann Mrs Fuger and
Dave the last to leave
on Xmas Eve. We always
try Hockings and
then read Luke 2
and said our
prayers — It was
not a great while
till morning and
we tumbled down
again to see our
presents. Ann
Mrs Fuger gave me
a very beautiful
set of cuff links —
She came down a la
pinzong and loved
the slides that
came to her

Tuesday Dec 26

The day went past
all right very quick
& I think about except
just Dear Mac Jiger-
Every moment I'm
awake & by
by feeling and it
has been pretty
continuous ever
since we arrived.
We talked our plans
and dreamed
our dreams anew.
As soon as I
can I will
stop her work
and begin to rest
and get ready
for the "always time".

Wednesday Dec 27

We made some candy to-day – Elizabeth and her baby John are here – He is a very attractive boy for his age – His constant presence for Anne, Inez Gregg and me – She is the sweetest spirit in all the world – The whole gamut of life meets a response in her heart – Tonight in spite of some down life will hereafter needs me to aid and make life what it ought to be –

Thursday Dec 28

The days of this year are drawing along their close. It began with Aunt Mac for us all Dyed and now it ends again, with her outbreath. She can be by us but a little last. She upon earth and my Saviour in Heaven watching over me. That is a bright that strengthens my heart and makes firm its feeble pace.

Friday Dec 29

This evening we went to see the Birth of a nation — I was glad to see it with Anne Mac Fegan. I remember when I saw it in Trenton that I wished so that she were along — and to here after time she is beside me when I see it and all the intervening time seems like only a dream when I think about it — we went out with a fine old woman & talked and watched each one —

Saturday Dec 30

The coming wedding festivities began today with a luncheon at the Jamestown Valley Club for the bridal party and some others - Anne MacGregor was there and they let me sit together. In the evening there. Fowlers gave a dinner dance at the Country Club for some 30 and supper we were to stay because of the blizzard but just before midnight Ed brought me home in his car.

Sunday Dec 31

We went up to St. Paul's to church Dr. Goodwin had a good sermon - In the afternoon they was a prayer meeting at Lon's, they a tea at Betty Rankins. and Miss Harris had us all over to supper after which we sat around the fire and sang. It was a good time. Anna Lee Jaynes and I staid and saw the year out and had our prayer together in the dark. So you see I am 17 years and 11 days old -
